

Revised 4/19/2016

BACCALAUREATE PROGRAM – Traditional Students

REQUIRED TEXTBOOKS - JUNIOR YEAR FOR 2016-2017

General information about textbooks:

Textbooks may be used for multiple courses. Do not sell your books until you find out which texts will be used for which course. You might need them next year.

If you purchase a used book, you may need to purchase additional online resources. When this applies, the books are identified with an appropriate notation.

Purchase the book edition listed here. This edition has information not included in an older edition. Assigned readings are based on the current edition. So, you would not know exactly what pages to read as you prepare for class. Older editions do not have the most current information. More important are the reading assignments. With an older edition, you will not know exactly what you need to read.

Read 'FAQ- Frequently asked questions-Textbooks' document at the end of this booklist.

The E-book packages are available for purchase from the campus bookstore and from other vendors. More information is available on the College of Nursing website:

<http://nursing.ouhsc.edu/CurrentStudents/Textbooks.aspx>

Print copies of textbooks may be purchased individually or as a discounted package from the campus bookstore. Ratcliffe's is the campus bookstore for Oklahoma City and Tulsa; Lawton students can purchase books through the Cameron University bookstore.

When purchasing E-books, remember to purchase access for 2 years.

REQUIRED FOR ALL COURSES:

Medical Dictionary: available on line and as E-book or hard copy.

American Psychological Association. (2010). *Publication manual of the American Psychological Association*. (6th ed.). Washington D.C.: Author.

ISBN: 978-1-4338-0561-5

Frequently Asked Questions: Textbooks

Q: A former student offered to sell me her books. Most of the books are the same author and title but older editions. Is this OK?

A: No. The newer edition (required for you this year) has information not included in an older edition. Assigned readings are based on the current edition. So, you would not know exactly what pages to read as you prepare for class and study for exams or write papers.

You probably won't know what the new information is. In addition, when information has changed and you study from the older edition, you are more likely to miss exam questions on that content.

Q: I already bought an older edition. Reading assignments will include the page numbers to for both the older and newer editions book, right?

A: In general, the answer is 'No'. If a new edition is required for this year, the relevant page numbers from both the edition used last year and the current edition might be given. However, faculty are not required to list both sets of readings.

You are still responsible for content in the newer edition. Any textbook references used for papers and assignments must be from the current edition. Exam questions will be based on information in the newest edition of the textbook.

Q: Can I purchase a used book as long as it is the same edition?

A: Yes. However, you may need to purchase additional online resources. This information is listed, if applicable, on the textbook list.

Q: Should I buy the E-books or print copies?

A: This question is not as easily answered. It partly depends on your learning style. If you are very comfortable reading and studying from E-books and readily remember the information and do well on tests, then the E-book package may be right for you. If you do better with print copies, then buy the print copies. Some students buy E-books and then buy print copies of selected textbooks. If electricity goes out and/or your internet service is interrupted, having a print copy is certainly an asset.

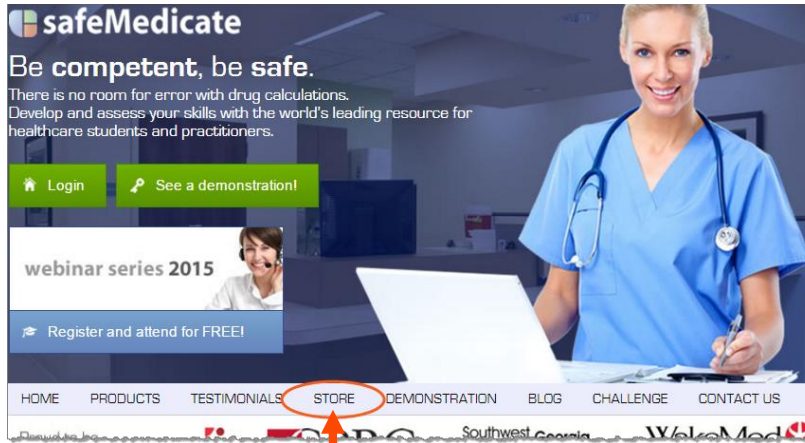

If you buy an E-book or E-book package, buy access for at least two years. This will give you access to the books for the entire nursing program plus a few months after graduation.

With an E-book package, you also get access codes to online materials. Many publishers provide automatic updates at no cost. With printed books, you may need to also buy an access code (if required for the course).

Q: Can I sell my books at the end of the semester?

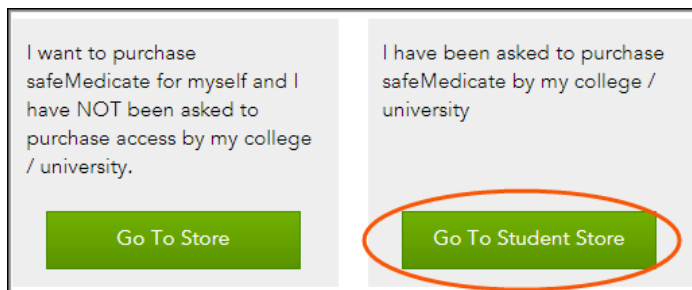

A: Do not sell your books until you find out which textbooks will be used in other nursing courses. The nursing textbooks are often used for multiple courses throughout the program. You might need the books next semester and/or next year.

1. Go to www.safemedicate.net, and click the **Store** menu.

Store menu

2. On the Store screen, click the **Go To Student Store** button.

3. Complete the following steps by selecting from the drop-down boxes:

Step 1:	Select the length of your license.	2 year
Step 2:	Select your institution/school.	The University of Oklahoma Health Sciences
Step 3:	Select the year you are entering the academic program.	2016
Step 4:	Select the cohort.	Fall
Step 5:	Select the group.	Traditional Fall 2016 Lawton Traditional Fall 2016 OKC Traditional Fall 2016 Tulsa

4. Type your name, email address, and billing address.
5. Create a password, and then confirm the password.
6. Click the **Purchase** button, and then enter your payment information.

Your license is **now registered**. You may now log into the safeMedicate program using your email address and password. You will receive a receipt for your transaction via email - please retain this for your records.

Be sure to go to the **Support** menu to review help guides and video tutorials. User guides are also available in the Modules section next to the Start Modules links. Send questions to info@safemedicate.net.

SafeMedicate has a **NO REFUND POLICY** once the license is purchased.
