Need NCLEX Accommodations?

To be able to receive accommodations on the NCLEX, please be sure to review the following information from their website: http://nursing.ok.gov/nclexaccommodate.pdf.

Students who are applying to utilize their accommodations during the exam must provide documentation from their provider which must:
- Be no older than three years
- Include the testing scores used to determine the diagnosis
- Include the complete evaluation along with the providers interpretation

Students must also submit a letter of accommodation which the ADRC can provide to verify what accommodations were provided to the student during the course of their nursing program.

To obtain a letter of accommodation, students will need to complete and return a Consent for Release, which can be requested via email at adrc@ou.edu. Please be sure to fill out this form in its entirety, including a physical signature, as electronic signatures are not valid. Once it is completed, please be sure to scan and email it to us. It does take Dr. Guttery 5-15 university days to get the letter ready once that Consent is turned in.

You must also obtain a letter from the director of the nursing program that verifies what accommodations were utilized in the college of nursing.

Lastly, students who are seeking accommodations for the NCLEX must fill out the accommodation form on the last page of the website noted above.
